Axiomteks IFW320

Axiomtek, one of the world's leading designers and manufacturers of innovative, high performance and reliable PC-based industrial computer products, has launched IFW320, an industrial 2-port Gigabit firewall with network address translation (NAT) and VPN all-in-one appliance. Equipped with stateful packet inspection, Denial of Service (DoS), and Intrusion Detection & Prevention (IDP), the din-rail industrial firewall appliance could be used to protect machine and equipment connecting to un-trusted internet. In particular, the CE certified system, supporting IPv4 and IPv6 dual mode protocol and coming with the high throughput rate maximum up to 500Mbps, provides not only flexible choice in protocol solution yet better data transmission. The Axiomtek intelligent industrial firewall platform IFW320 is built in

with IPsec VPN providing site to site secure tunnel, PPTP VPN offering point to point connection for employee at home, and SSL VPN allowing easy VPN access to the headquarters simply through a web browser. This firewall router device provides system integrator and machine maker a secure way to configure and maintain devices.

Advanced Features:

- Firewall/NAT/Router all-in-one
- Security protection: Firewall, IDP, Botnet
- Secure connection: VPN, SSL VPN, WAN connection checking
- IPv4/IPv6 dual mode
- Easy network setup with Network Address Translation (NAT)
- Quick installation, USB restore
- Centralized management
- Wide temperature operation -40°C ~ 75°C (IFW320-T)
- Din-rail, rugged design
