Axiomtek's eBOX626-853-FL Fanless Embedded System with Intel® Celeron® N3150 up to 2.08GHz

Axiomtek, one of the world's leading designers and manufacturers of innovative, high performance and reliable PC-based industrial computer products, announced the arrival of the eBOX626-853-FL, a slim-type fanless embedded system with wide range temperature and wide range DC input support. The cost effective compact embedded box PC is designed to support the Intel® Celeron® processor quad-core N3150 (codename: Braswell) integrated with Intel® Gen 8 graphics and DirectX 11.1. One DDR3L 1333/1600 SO-DIMM socket supports up to 8 GB memory. The IP40-rated industrial computer eBOX626-853-FL combines low power consumption with high performance graphics and computing for smart automation, transportation, industrial gateway, multiple media kiosk and other IoT&M2M applications.

Main Features:

- Intel® Celeron® processor N3150 up to 2.08 GHz Braswell quad-core SoC onboard
- Supports HDMI (4K2K) and VGA
- Supports 4 COM and 4 USB
- Dual GbE ports support WoL, Teaming and PXE
- Dual PCI Express Mini Card for WLAN/WWAN/mSATA modules
- 9 ~ 36VDC wide range power input
- -20°C to 60°C wide operating temperature range

Portrait

Founded in 1990, Axiomtek is one of the major design and manufacturing companies in the Industrial PC field. Since its establishment, Axiomtek has successfully gained world wide recognition for its innovative designs and guarantee of total customer satisfaction. At Axiomtek, we design, manufacture, and support award-winning versatile and modularly designed Single Board Computers, Applied Computing Platforms and Touch Panel Computers, so that customers have a single, reliable, cost-effective source. Axiomtek's wide array of CE, FCC & UL certified products include single board computers, embedded systems and barebone systems, panel computers, medical PC, human machine interfaces, and network security appliances. Our worldwide technical support and sales service among our offices located in Taiwan, USA, Europe, Japan, and China to ensure prompt service to customers as well as logistic centers in Taiwan, USA, and China.
