Global Charger 8000 - USB Fast Charger

It's always the same: at first you spend not a second without each other, count one hundred percent on your partner – and in the next moment it is suddenly over and out. Constantly empty smartphones are a problem everybody knows. But there are big differences in the speed with which you bring your (un)faithful companion back on track.

With the new fast chargers from ARCTIC no more time is wasted and the charging time of your smartphone is reduced to a minimum. The integrated Quick Charge 2.0 port from Qualcomm provides maximum performance and makes charging up to 75 % faster possible\*.

Thanks to Smart Charging technology the USB device plugged is automatically detected and all brands from Apple to HTC are ready for use in no time. With 8,000 mA Quick and Global Charger provide enough power to handle up to five devices simultaneously and convince with an efficiency of 83-86 %. This not only saves money but also lowers temperature and increases service life. Because “safety first” is an important element even at fast charging a series of protective mechanisms like short circuit, overheat and overvoltage protection ensure an overall protection of your connected devices.

Worldwide powered are travelers with the Global Charger 8000. Thanks to four different AC Cables and two micro USB cables in a handy carrying case you are well-equipped for numerous holiday destinations.

\* All information about the Qualcomm charging technology and the full list of supported devices you find on [snapdragon.arctic.ac](http://snapdragon.arctic.ac).

The Quick Charger 8000 & Global Charger 8000 are now available at ARCTIC for a MSRP of 34.99 € respectively 39.99 €. Furthermore you can buy the Quick Charger 8000 and the Global Charger 8000 at Amazon.
