

Human Insulin Market Analysis, Development and Demand Forecast to 2020

29.04.2016, 08:44 | Gesundheit & Medizin

Pressemitteilung von: *P&S Market Research*

The global human insulin market is expected to witness double digit growth during the period 2015 to 2020 to reach \$48,487.7 million value by 2020. The global human insulin market is being driven by increasing prevalence of diabetic population, and rise in aging population. Diabetes is a chronic and non-communicable disease, and its global prevalence is increasing enormously. Rising prevalence of obesity, rising awareness about diabetic care, and technological advancement in insulin delivery devices are some of the factors driving the growth of the global human insulin market. Growing demand of biosimilar drugs, due to its cost effectiveness, pose an opportunity for the growth of the human insulin market. In addition, increasing usage of insulin pens for the administration of insulin helps to inject the accurate dose of insulin at a time. However, high insulin analog cost and strict regulatory requirements for approval of human insulin are inhibiting the growth of the global human insulin market.

Increasing prevalence of diabetes, increasing number of geriatric population, rising prevalence of obesity and increasing R&D investment for more effective insulin are driving the growth of the human insulin market in North America. The North American human insulin market is expected to grow by a CAGR of 11.8% during the period 2015 to 2020. In Europe, according to International Diabetic Federation in 2013, approximately 52 million people were suffering from diabetes in Europe. The European human insulin market is expected to grow by a CAGR of 12.6% during the period 2015 to 2020. Thus, increasing prevalence of diabetes would increase the usage of human insulin. Also, in Asia Pacific region, several government initiatives are implemented to create awareness about prevention and treatment of diabetes. The government is also taking initiatives to improve healthcare infrastructure and provide treatment in rural areas. In Asia-Pacific, the human insulin market is expected to witness CAGR of 13.9% during the period 2015 to 2020.

Human Insulin Market Segmentation

Human Insulin Market by type

- Traditional human insulin
- Modern human insulin

Traditional Human Insulin Market by type

- Short acting human insulin
- Intermediate acting human insulin
- Premixed human insulin

Modern Human Insulin Market by type

- Long acting human insulin
- Rapid acting human insulin
- Premixed human insulin

Human Insulin Market by Brand

- Lantus
- Novorapid
- Humalog
- Novomix
- Levemir
- Apidar
- Humulin
- Insuman

Geographical Segmentation

Human Insulin Market by Region

- North America
 - o The U.S.
 - o Canada
- Europe
 - o Germany
 - o France
 - o The U.K.
- Asia-Pacific
 - o India
 - o China
 - o Japan
- Rest of the World (ROW)
